FIND THE PERFECT ONE TO MATCH YOUR STYLE OF RIDING.

PERFORMANCE RIDERS : A low windshield is right for you. The low cut will be more aerodynamic, and if you roll your sled, the chances of your windshield getting caught and breaking are reduced.

EXTREME LOW

LOW SNO PRO

MID PERFORMANCE

TOURING AND LONG DISTANCE RIDERS:

A tall snowmobile windshield will be perfect to keep you warm and protected from the wind.

MID TOURING

HIGH TOURING

KASHIMA COAT

Select shocks feature Genuine Kashima Coat. The distinctive gold color is backed by its high-performance properties that provide reduced friction, an exceptionally smooth feel and extreme durability.

QS3

(3 SETTING QUICK POSITION SWITCH)

Choose from three specifically calibrated ride control settings to tune in your own personal ride and handling setting. The QS3 supplies a wide range of adjustments while simply allowing the user to make a change quickly without tools.

REBOUND DAMPING

Rebound damping controls the rate at which the shock returns after it has been compressed. The proper rebound setting is a personal preference and changes with rider weight, riding style and conditions.

FOX FLOAT DIGITAL PUMP

- Easily adjust Fox Float air pressure in the shop or on the trail
- Convenient digital display reads 0-300 psi
- Replaceable battery

7639-121 | ALL FOX FLOAT SHOCKS

Mounting Track design allows you to easily slide a Utility Jug or Gear Bag on and off your tunnel. Raised mounting track keeps the gear away from your tunnel. Mounting tracks are made of HDPE plastic for durability plus resistance to snow and ice buildup. Heavy-duty Utility Jugs are UV-protected. Hard-sided Gear Bags are made of water-resistant polyester with a urethane-coated outer shell and feature padded foam lining. The Utility Jug and Gear Bag base slides easily onto the mounting track. Mounting Track, Utility Jugs and Gear Bags are sold separately. **NOTE:** Utility Jugs are not intended for fuel storage.

MOUNTING TRACK KIT

- Raised rail design helps keep your tunnel from being damaged
- Includes two 14-in. tracks and mounting hardware
- Fits models with a flat-top tunnel
- Tunnel Reinforcement Kit recommended for carrying fuel or heavy loads on M models

7639-204 | '12-'23 M; '14-'23 ZR, THUNDERCAT; '12-'19 XF HIGH COUNTRY; '17-'19 KING CAT; '13-'17 XF; '13 F

7639-210 | FITS MOUNTING TRACK KIT

GEAR BAG

- Includes two zippered interior storage pockets and elastic tie-down straps
- Exterior straps hold your shovel or gear
- 9.75 in. x 13 in. x 8.5 in.

7639-211 | FITS MOUNTING TRACK KIT

The Float avalanche airbag system is designed to keep you at or near the surface during an avalanche. It is one of the most proactive snow safety tool you can carry into avalanche terrain. BCA Float avalanche airbags are both affordable and easily reusable.

- > Features a small 2,700-psi (186 bar) compressed-air cylinder, single-chamber 150-liter airbag and super-efficient venturi system
- > Trigger is located on right shoulder strap, allowing you to keep your right hand on the throttle
- > Includes pressurized air cylinder
- > Hazardous-shipping charges may apply

FLOAT MTNPRO 2.0 VEST

- Lightweight, protective vest with airbag
- Full front, side and back protection
- Two sizes to fit most riders
- Float 2.0 System
- Shovel not included
- 8.6 lbs., 20-liter capacity

8639-268 | M/L

8639-269 | XL/XXL

FLOAT 15 TURBO™

- Internal tool pocket for probe
- External shovel carry (shovel not included)
- Float 2.0 System
- 6.1 lbs., 15-liter capacity

8639-111 |

EXTREME PROTECTION FOR THE TOUGHEST CONDITIONS

This heavy-duty rail brace enhances the strength of the Alpha One® Single Beam Rear Suspension for the most extreme riders. At half the weight and twice the strength of billet, our braces withstand the gnarliest conditions the backcountry can dish out.

ALPHA ONE

ALPHA RAIL BRACE - 8639-291

'19-'23 M ALPHA 146-165-IN.; '21-'23 RIOT X, BLAST M

- » Weighs 1.2-pounds with rivets
- » Reinforces entire mid-section of suspension rail to resist bending
- » Includes RH and LH braces, steel HD rivets, and installation instructions

FLOAT 25 TURBO™

- Internal tool pocket for probe
- External shovel carry (shovel not included)
- Float 2.0 System
- 6.9 lbs., 25-liter capacity

8639-112 |

FLOAT 2.0 AIR CYLINDER

- Replacement pressurized air canister

1641-374 |

STASH 20 BACKPACK

- 20 liters of storage, with dedicated tool pocket for shovel and probe
- Hydration compatible with insulated shoulder strap to prevent freezing
- Lightweight, compact (Weighs 2.9lbs)
- Accepts BC Link Radio system

8639-305 |

In an on-mountain emergency, these easy-to-use and efficient transceivers are a necessity among your supplies

TRACKER3

- BCA's most efficient, progressive design and most precise pinpointing
- Instantaneous, real-time display
- Small and light with three antennas for no-nonsense multiple burial searching
- Includes harness

6639-406 |

TRACKER S

- Simplicity is speed — our stripped-down, more affordable transceiver
- All the performance of the T3, without motion-sensing or upgradeable software

8639-113 |

BCA Quick-Lock probes save valuable seconds when time matters. They offer the easiest and fastest assembly on the market, all while freeing up valuable storage space in your pack.

STEALTH 270

- High-strength aluminum probe with laser-etched depth markings for added durability
- Collapsed 17.7 in., extended 8 ft. 10 in.
- 10.4 oz.

6639-444 |

Strong group communication is the key to any successful day riding the mountains. Find separated riders, communicate plans and share observations in real time with the BC Link™ communication system. The Smart Mic user interface is located at your fingertips, meaning you never need to dig your 2-way radio out of your pack to change settings. Glove-friendly controls include: on/off and volume control, channel control, push-to-talk button, loudspeaker, earphone jack and battery indicator. Rechargeable lithium ion battery pack provides up to 4 days of battery life in cold weather. BC Link 2-way radios operate on 22 FRS GMRS channels + 121 sub-channels to ensure minimal interference.

BC LINK 2.0 RADIO

- 2 watts for increased usable range

8639-114 | **BEST SELLER**

BC LINK 1.0 RADIO

- 1 watt

7639-466 |

BC LINK REPLACEMENT BATTERY

- Fits BC Link 1.0 Radio

1641-117 |

B-1 EXT SHOVEL

- Extendable-handle shovel with an amazing strength-to-weight ratio
- Tough oval shaft with an ergonomic grip
- Extends up to 28.75 in. long, 9 in. x 10 in. blade, 1.3 lbs.

8639-233 |

A-2 EXT SHOVEL

- An integrated shovel system with a larger blade and extendable handle
- Includes an 11.4-in. snow/wood saw stowed inside the grip
- Extends up to 30.5 in. long, 10 in. x 11 in. blade, 1.9 lbs.

5639-786 |

D-2 EXT SHOVEL

- Converts from a traditional shovel to a hoe
- Move more snow without lifting it
- Includes a 6.5-in. snow/wood saw stowed inside the shaft
- Extends to 32 in. long, 10 in. x 11 in. blade, 2.1 lbs.

7639-765 |

COBRA™

- Sled-to-sled pulling tool
- Made of stretch cords bundled in a corrugated vinyl tube with a hook on both ends
- Creates 300 to 400 lbs. of static pulling force

5639-640 |

RATTLER

- Maximizes the pulling force of your body
- Made of strong stretch cords bundled in a corrugated vinyl tube
- Safety strap hook attaches to the ski of the stuck sled with a grab handle on the other end

5639-639 |

TRACKS

COBRA

- Cupped lugs for superior handling, acceleration and braking on soft, loose trails
- Excellent off-trail performance without sacrificing top speed

HACKSAW™

- Crescent lug design with recessed tips and cutting edges provides grip on hard-packed trails
- Narrow lug base provides less rolling resistance for maximum top speed

POWER CLAW™

- This lightweight single-ply track sets the standard for deep snow performance
- Stagger-set, curved-forward paddle towers won't fold over or take a set
- Available in 2.25-in. and 2.6-in. lug heights with 80 or 85 durometer

3-IN. POWER CLAW

- Full 3-in. lug height brings maximum control to even the deepest snow
- Lightweight single-ply track features stagger-set, curved-forward paddle towers that won't fold over or take a set
- 80 durometer hardness rating for rugged performance
- Requires 7-tooth driveshaft

RIPSAW™

- Aggressive angled lug profiles for outstanding traction on groomed trails
- Rigid lugs provide excellent durability

RIPSAW II

- Lug design combines the best features of Ripsaw and Cobra tracks for excellent all-around performance
- Less track noise for quieter operation on hard-packed trails

BACKCOUNTRY X

- Snocross-inspired, arched lugs are staggered for outstanding traction in soft snow
- Rigid lug support columns for on- and off-trail performance

ALPHA TRACK + DRIVER UPDATE KIT

- Upgrade the durability of your Alpha-equipped machine with reinforced track construction and revised drive sprockets
- Includes updated 2-Window Track and Track Drive Assembly

HANDLING & TRACTION

MAXIMIZE STEERING CONTROL

The length of the turning carbide (carbide inserted directly under the steering spindle) is the determining factor on steering control. The longer the turning carbide, the more positive turning becomes. Too few studs with long turning carbides can result in the situation shown in Illustration 1 below.

MAXIMIZE TRACTION CONTROL

The quantity and types of studs inserted through the track can have several effects. If installed improperly, track and/or stud damage can result. If the pushing force from an excessive number of studs exceeds the ability of the steering to control the force, the effect could be like that in Illustration 2. In this case, the studs tend to "push" the skis in a straight line.

- 1 Back end loose.** Too much carbide, not enough steering control.
- 2 Front end pushes.** Weak steering from worn wearbars, turning carbides too short or overstudding on track.
- 3 Steering control and stud quantity are in balance** for proper setup.

TUNE YOUR SLED'S HANDLING TO YOUR RIDING STYLE

Determining the proper traction and control is simple. What's your riding style: Are you a conservative trail rider or a performance trail rider? Look at the chart below. Find the line with the horsepower of your sled. Look under your riding category. Here you will find the number of studs and the length of the carbide wearbar you should use. This is a baseline guide for stud and wearbar selection. See your dealer for specific model applications.

STUD QUANTITY / INCHES OF TURNING CARBIDE

SLED	TRAIL	PERFORMANCE
50-75 HP	48/4 in.	48/6 in.
75-125 HP	102/6 in.	153/8 in.
125-150 HP	153/8 in.	153/10 in.
150-200 HP	153/8 in.	153/10 in.

FOR STUD PLACEMENT, USE AN ARCTIC CAT-APPROVED STUD TEMPLATE SHOWN ON PAGE 85.

Arctic Cat traction products are available in package quantities that will give you the best combinations for 129-in. and 137-in. tracks.

RECOMMENDED STUD LENGTH (IN.)

TRACK LUG HEIGHT	WOODY'S® STUD LENGTH
1.000	1.075
1.250	1.325
1.352	1.325
1.500	1.575
1.600	1.575

Cobra 1.35/1.60 in. tracks have a standard lug height of 1.25/1.50-in in. The overall lug height including the extended "towers" is 1.35 in. Because the towers will flex, Cobra 1.35-in. These Cobra tracks do not use studs longer than their nominal lug height.

CAUTION

- To protect the tunnel from possible damage from the studs, it is recommended that Tunnel Protector Kit be installed on those models not so equipped
- A Short Snowflap is required when installing studs on '07-'09 F Series; '09 Z1, Z1 Turbo; '09-'11 Crossfire™ and CFR
- See your dealer for additional information

STUD PLACEMENT

- DO NOT use studs that are longer than recommended
- DO NOT place studs in line with the heat exchanger or tunnel protector strip, and factor in the amount of suspension travel to avoid tunnel damage
- Studs MUST NOT extend more than 3/8 in. beyond the rubber track lugs
- Verify adequate clearance between the track, tunnel and heat exchanger to avoid serious damage
- Confirm that your machine has adequate tunnel protection before installing studs
- Use an Arctic Cat-approved Stud Template shown on page 72
- The length of carbide and number of studs must coordinate to result in balanced handling and proper control

PROCROSS SKIS

- 6-in. ski kit (pair)
- Includes 4-in. carbide wearbars

3639-345 8-IN. | CARBIDE W/ HARDWELD

DEUCE™ TWIN CARBIDE WEARBARS

- Reduces darting and eliminates dual-runner-type drag
- Durable one-piece design
- Fits '05-'23 Arctic Cat Saddleless Skis
- Features two carbide runners
- Sold individually

5639-251 4.5-IN. | CARBIDE W/ HARDWELD

5639-252 6-IN. | CARBIDE W/ HARDWELD

5639-253 9-IN. | CARBIDE W/ HARDWELD

SHAPER™ WEARBARS

- Offers more precise turning than conventional wearbars
- 20% lighter than round wearbars
- Fits '05-'23 Arctic Cat Saddleless Skis
- Sold in pairs

4639-949 | 4.5-IN. CARBIDE

4639-950 | 6-IN. CARBIDE

4639-951 | 9-IN. CARBIDE

ACE™ WEARBARS

- Utilizes a preformed, square steel bar with a tall, aggressive profile
- Provides excellent control
- Fits '05-'23 Arctic Cat Saddleless Skis
- Sold in pairs

6639-850 | 6-IN. CARBIDE

6639-799 | 8-IN. CARBIDE

STAGGERED WEARBARS

- Features a single carbide runner and an offset hardweld runner
- Lighter steering than a dual carbide runner
- Reduces darting and plugging
- Available with a standard (0.312) or aggressive (0.500) bar
- Fits '05-'23 Arctic Cat Saddleless Skis
- Sold individually

2703-598 | 4-IN. CARBIDE 3-BOLT (RH) .312 (STANDARD)

2703-599 | 4-IN. CARBIDE 3-BOLT (LH) .312 (STANDARD)

2603-988 | 4-IN. CARBIDE 3-BOLT (RH) .500 (AGGRESSIVE)

2603-931 | 4-IN. CARBIDE 4-BOLT (LH) .500 (AGGRESSIVE)

SINGLE RUNNER

- Ideal on ice and hardpack, but works well anywhere
- May provide a noted speed increase compared to a dual wearbar
- Hardweld wearbars have a 7/16-in. host bar, carbide wearbars have a 1/2-in. host bar
- Fits '05-'23 Arctic Cat Saddleless Skis
- Sold in pairs

3639-309 | HARDWELD WEARBAR

3639-310 | 4-IN. CARBIDE W/ HARDWELD

3639-311 | 6-IN. CARBIDE W/ HARDWELD

TUNNEL PROTECTOR KIT

- Required when installing studs on models listed below

7639-138 | '18-'23 ZR 6/8000; '17-'23 ZR 9000, THUNDERCAT; '20-'23 RIOT; '18-'19 PANTERA, XF CROSS COUNTRY, CROSSTREK 6/8000; '17-'19 XF 9000; 129-146-IN.

6639-075 | '14-'17 ZR 6/8000; '15-'17 ZR 4000; '14-'16 ZR 5/9000; '13 F 129-IN.

6639-118 | '16-'17 ZR 6/8000; '17 ZR 5000; '16 ZR 9000; '13-'15 XF 6/8/9000 137-141-IN.

STUD TEMPLATE

- Available in patterns perfectly matched to your riding style

8639-227 | '20-'23 RIOT, '15-'19 PANTERA, XF CROSSTOUR 146-IN.; '16-'23 ZR, THUNDERCAT, '16-'18 XF CROSSTREK, '14-'15 XF 137-IN.; '14-'23 ZR, '13 F 129-IN. 2.86 P (2-PLY)

TRACK MARKER

- Ensures track pattern aligns perfectly with stud template

1639-520 |

STUD DRILL

- Cuts cleanly for precise stud locations

1639-629 |

FEATURED ON SLED:
7639-301 / PRO BUMPER - BLACK
8639-077 / MID TOURING WINDSHIELD - MEDIUM GREEN
8639-196 / PRO MTN BUMPER - RED

MAINTENANCE

FEATURED ON SLED:
7639-293 / PRO MTN WINDSCREEN

4.3A BATTERY CHARGER

- A great all-around charger every household should have
- Special cold-weather performance and adapted AC and DC cables to handle severe cold down to -22°F (-30°C)
- Features four modes: LOW CURRENT MODE for smaller 12V batteries used in snowmobiles and ATV/UTV HIGH CURRENT MODE for automotive or marine applications WINTER MODE for charging and maintenance in cold weather RECONDITIONING MODE for deeply discharged batteries
- Fully automatic for charging and maintenance
- Takes its own readings and begins to charge
- Once finished charging, it will switch to a maintenance phase
- Features a patented method for reconditioning sulfated batteries
- Spark-free, making connection safer and easier
- Extends battery life
- Includes alligator clips and ring terminal leads
- 12V, 4.3A

7639-504 | BEST SELLER

0.8A BATTERY CHARGER

- The ideal maintenance charger for 12V batteries
- Fully automatic for charging and maintenance
- Takes its own readings and begins to charge
- Once finished charging, it will switch to a maintenance phase
- Features a patented method for reconditioning sulfated batteries
- Spark-free, making connection safer and easier
- Extends battery life
- Includes alligator clips and ring terminal leads
- 12V, 0.8A

7639-503 |

1.5A BATTERY MAINTAINER

- Fully-automatic maintainer for powersports batteries
- Automatic voltage detection
- Reverse hook-up protection
- Includes alligator clips and ring terminal leads
- 12V, 1.5A

8639-357 |

BATTERY JUMP PACK

- Quickly start your snowmobile or ATV/UTV
- Lightweight, long-lasting 8,000 mAh lithium ion power source
- Features LCD display, two USB power/charging ports, a 2.1A for tablets, a 1A for mobile phones, and a powerful 3-mode LED light
- Cranking current: 400A peak, 200A cranking
- Includes smart cables and a USB charging cord

2436-980 |

JUMP PACK POUCH

- Protective zip pouch for 2436-980 Battery Jump Pack
- Prevents loose components from becoming lost or damaged

8639-035 |

BELT TOOL

- This tool is used to expand the driven clutch to aid in changing the drive belt and adjusting deflection (Certain models)
- Includes sleeve to protect threads when not in use

0744-098 | '16-'23 5/6/7/8/9000 MODELS

0644-662 | '21-'23 4000; '15-'22 R SX; '15-'21 R XC; '04-'14 SNO PRO MODELS

TRACK TENSION TOOL

- Maintain your track tension for optimum performance

7639-153 | UNIVERSAL

EXHAUST SPRING TOOL

- Easily remove the springs securing the expansion chamber and resonator
- Provides wide-open access to service the engine and other underhood components

0644-554 STANDARD 6" | UNIVERSAL

6639-904 HEAVY-DUTY 16" | UNIVERSAL

EXHAUST VALVE CABLE GAUGE

- This tool is used to check Arctic Power Valve (APV) cable adjustment
- Ensure optimal exhaust valve operation for smooth, responsive engine performance

8639-126 | '10-'23 800/8000; '14-'23 6000 MODELS

DRIVE CLUTCH PULLER

- This tool is used to remove the drive clutch for service or calibration adjustment
- Built from hardened steel for superior durability
- Metric puller features a blue coating for easy identification

0744-080 METRIC | '14-'23 2/3/4/5/6/7/8/9000; '10-'13 500, 570, 600, 800, 1100, 1100T; '07-'11 1000 MODELS

0644-207 STANDARD | UNIVERSAL '97-'09 (EXCEPT '07-'09 1000 MODELS)

ENGINE REBUILD KITS

- Give your Cat another life with everything needed to refresh your engine
- Piston + ring assemblies
- Wrist pins + bearings + shims
- Top end gasket set
- Spark plugs

8639-238 | '10-'17 800/8000 MODELS

8639-239 | '14-'19 6000 MODELS

8639-240 | '18-'19 8000 MODELS

DRIVELINE REBUILD KIT

- Keep your ProCross, ProClimb, or Ascender sled rolling smoothly and efficiently with a complete drive bearing kit
- LH + RH jackshaft bearings
- LH + RH driveshaft bearings
- Hardware and instructions

8639-489 | '15-'23 6/8000; '15-'16 4/5/9000 MODELS **NEW**

8639-488 | '14 5/6/8/9000; '12-'13 800/1100 MODELS **NEW**

BELTS

- > Custom fit to match each Arctic Cat sled and specific use
- > Better contact with clutch surface and faster acceleration from double cogs
- > Increased belt life by running cooler than aftermarket belts
- > Premium reinforced with Aramax® aramid fibers for strength and durability
- > Increased power transmission with less slip
- > Kevlar® drive belts available for high performance models, which dramatically extend belt life and sustain belt length better than traditional cords

NOTE: Proper break-in period required.

PREMIUM ARCTIC CAT "EXTENDED-LIFE" ORIGINAL EQUIPMENT REPLACEMENT BELTS

Don't settle for anything less than a drive belt built specifically for your sled. Proven through extensive lab and field testing, original equipment Arctic Cat replacement belts are precision-engineered for each Arctic Cat snowmobile.

CUSTOM-ENGINEERED FIT

While non-OEM aftermarket belts offer "one construction fits all," Arctic Cat Research & Development custom engineers each genuine Arctic Cat belt to match the specific performance characteristics of your sled. This produces the best combination of strength, durability and responsiveness for lower-horsepower, fan-cooled sleds all the way up to high-horsepower muscle sleds. Each one is built using only state-of-the-art materials, incorporating precision manufacturing techniques to meet exacting tolerances.

TOP & BOTTOM COGS

Arctic Cat original equipment belts are double cogged, so more of the belt contacts the clutch surfaces. This results in faster acceleration, maximum efficiency and superb overall performance. Double-cog design provides structure while adding surface area for greater cooling and longer life. In fact, our belt runs cooler than flat-top aftermarket belts.

ARAMAX HIGH-MODULUS ARAMID-FIBER TENSILE MEMBER

The Aramax inner cord provides incredible strength and durability for high-horsepower, high-performance sleds. In addition, each belt is chemically treated for maximum power transmission and length stability.

HIGH-PERFORMANCE PREMIUM COMPOUNDS

Arctic Cat's OEM belts incorporate advanced "premium" compound materials that ensure optimum belt performance under all riding conditions. The advanced aramid-fiber-loaded rubber compound resists wear and delivers consistent power while minimizing slippage over a broad range of operating temperatures. The thicker, highly flexible design increases grip to clutch surfaces for increased power transmission.

ARCTIC CAT KEVLAR DRIVE BELTS

These ultimate-performance Arctic Cat Kevlar drive belts are custom engineered for high performance F models. Extended-life belts feature top- and bottom-molded cog construction and high-performance compounds. Inside, the Kevlar cord provides increased belt life. Please note that proper belt "break-in" is required.

OIL & CARE

C-TEC2™ SYNTHETIC OIL

The C-TEC2 revolutionary clean-burning engine technology demands an entirely unique oil formulation. This lubrication system effectively delivers oil where it is required — as a result using significantly less oil compared with traditional 2-cycle engines. This technology requires a unique viscosity and blend of additives and base stocks. After several years of intense testing, numerous formulations, thousands of dyno hours and hundreds of thousands of field test miles, we landed on this unique oil technology.

- The ONLY oil recommended for the C-TEC2 engine, but approved for ALL Arctic Cat 2-cycle engines
- Reduction in recoil pull-effort during cold weather starting
- Convenient C-TEC2 oil packaging provides easier pourability and less waste
- Fully synthetic formulation provides ultimate engine protection
- Detergent additives maximize Arctic Power Valve™ and engine cleanliness
- Smokeless formulation burns extremely clean with a fresher scent

8639-118	1 QUART
7639-840	1 GALLON BEST SELLER
6639-521	2.5 GALLONS

APV™ SYNTHETIC OIL

- Outstanding performance for all non-C-TEC2 Arctic Cat 2-cycle engines
- Protects against engine wear with excellent lubricity
- Provides excellent Arctic Power Valve cleanliness
- Smokeless formulation burns clean
- Helps prevent piston scuffing, varnish formation and deposit buildup

4639-349	1 QUART
5639-469	1 GALLON BEST SELLER
4639-347	2.5 GALLONS

C-TEC4™ SYNTHETIC OIL & CHANGE KITS

- Provides superior performance in ALL operating conditions including in the extreme cold
- Synthetic base stocks offer high lubricity that protects engine from wear and scuffing
- Exclusive formulation includes additives that help prevent deposit formations, ring sticking and engine wear
- Includes one gallon of synthetic C-TEC4 oil, oil filter, O-ring washer and disposable funnel

2-STROKE OIL

FORMULA 50 OIL

- Mineral based 50:1 injection oil is recommended for non-Arctic Power Valve 2-cycle engines
- Performs well over a wide range of operating temperatures
- Minimizes engine wear
- Prevents rust/deposit formation

5639-475	1 QUART
5639-476	1 GALLON BEST SELLER

4-STROKE OIL

SYNTHETIC ACT GEARCASE FLUID

- Specially formulated for the ACT drive system
- Full synthetic lubricant that stays consistent across a broad temperature range so it flows well when cold and won't break down when hot
- Protects against wear and corrosion in ACT drive systems with reverse

5639-219 | 15 OZ.

7639-080 | 27.1 OZ.

ACT™ DRIVE FLUSH FLUID

- Flush ACT gearcase to remove contaminants and wear particles before replacing ACT gearcase fluid

4639-333 | 6 OZ.

SYNTHETIC CHAIN LUBE

- Full synthetic formulation resists breakdown and helps protect against wear at extreme high or low temperatures
- Inhibits rust and corrosion during periods of non-use or extended storage
- Made with additive that protects internal components and conditions seals

6639-539 | 15 OZ.

6639-117 | 2.5 GALLONS

ARCTIC CAT EXTREME LOW TEMP GREASE

- Premium synthetic base makes Arctic Cat Low-Temp Grease perform in extreme winter conditions, -40°F to 300°F
- Keeps contaminants from entering and damaging suspension components
- Exceptional cold temp bearing and pivot point performance

7639-517 | 10 OZ.

SYNTHETIC SHOCK OIL

- Full synthetic medium weight shock oil protects against wear, fading, foaming, oxidation, rust and corrosion
- Proven superior performance under extreme conditions
- Best choice for servicing gas shocks that will see heavy-duty trail or racing use

4639-368 | QUART

SEMI-SYNTHETIC SHOCK OIL

- Engineered with a high viscosity index (VI) formulation
- Provides superior, consistent performance in severe operating and racing conditions
- Protects against wear, foaming, oxidation and corrosion

5639-530 | QUART

FUEL TREATMENT

- Dual- antioxidant formula protects fuel system
- Stabilizes fuel for up to 2 years
- Safe for all power sports applications
- Ethanol compatible
- Convenient measuring cup

2436-868 | 12 OZ.

DOT 4 BRAKE FLUID

- Premium fluid designed with corrosion and oxidation inhibitors has over 10% higher wet boiling point than DOT 4 minimum requirements
- Provides firm brake-feel in all conditions, even if moisture is introduced into the brake system

5639-848 | 12 OZ.

ARCTIC CAT ANTIFREEZE - 60/40 EXTENDED LIFE

- Premixed and ready to pour
- Protects against freezing to -62°F and has boiling point of 270°F
- Bitterant additive reduces likelihood of animal ingestion
- Extended-life antifreeze 3 times longer service life

2436-871 | GALLON

INSTANT DETAILER

- Polishes and protects
- Showroom-quality shine
- Resists finger markings
- Greaseless finish

5639-849 | 16 OZ.

CAT CADDY

- Superior mobility from 2.5-in. swivel casters
- Includes two ski dollies and a track dolly

5639-873 PLASTIC - BLACK | **BEST SELLER**

5639-874 PLASTIC - GREEN | **BEST SELLER**

4639-766 ALUMINUM - BLACK |

REPLACEMENT PARTS

WOODY'S LIMITED WARRANTY

INTERNATIONAL ENGINEERING & MANUFACTURING, INC. WARRANTS each product manufactured by it to be free from defects in material and workmanship under use for the purpose for which it is intended. The Company shall not be liable for damage or delays caused by defective materials or workmanship; is limited to the repair or replacement at its factory of defective article or part thereof, which may be returned to the factory, transportation charges prepaid, within one (1) year after delivery to the original purchaser. Proof of purchase is also required. The Company shall be the sole judge of the existence of any defect in the article so returned. No claims for charges incurred in the removal, disassembly or reinstallation of such article shall be allowed. Product manufactured for consumer use on snowmobiles is designed for snow or ice only, use on any other surface voids warranty.

This Warranty shall not cover any article which has been misused or neglected or damaged by accident or any article which has been altered outside the Company's factory. The Warranty for studs is void unless the studs are installed with Woody's installation tools, support plates and lock nuts; according to the recommendations set forth in Woody's Instructions and Template Patterns. This Warranty does not cover bending, chipping, flaking or carbide pin breakage or pin loss from stud wear, stud replacement labor or shipping.

WOODY'S MANUFACTURER WARRANTY RETURNS

The Company shall, in no event be liable for consequential damage or contingent liability arising out of any total or partial failure to function of any article manufactured by it or of any equipment on or in which it is used. Failure of a user to give notice to claim as to defect claimed under the provisions of this Warranty within 1 year after delivery to original user, such claim shall constitute a waiver by consumer of all claims with respect to goods and equipment.

The above warranty is in lieu of all other warranties, expressed or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. In no event will the company be liable for consequential damages whether or not it has notice of the possibility of any such damages.

Follow the Woody's Manufacturer Warranty Returns directions to return any product from International Engineering & Mfg., Inc.

STUD BOY WARRANTY

Liberty Products, Inc. herein noted as The Company, warrants each article manufactured by it to be free from defects in material and workmanship under use for the purpose for which it is intended. The Company shall not be liable for damage or

delays caused by defective materials or workmanship; is limited to the repair or replacement, at its factory; of any defective article or part thereof, which may be returned to the factory; transportation charges, prepaid; within 90 days after delivery to the original user. Proof of purchase is also required. The Company shall be the sole judge of the existence of any defect in the article so returned. No claims for charges incurred in the removal, disassembly or reinstallation of such article will be allowed. Product manufactured for snowmobiling is designed for snow or ice only. Use on any other surface voids warranty. This warranty shall not cover any article which has been misused, neglected, or damaged by accident or any article which has been altered outside The Company's factory. The Company shall, in no event, be liable for consequential damage or contingent liability arising out of any total or partial failure to function of any article manufactured by it or of any equipment on or in which it is used. Failure of a user to give notice to claim as to defect claimed under the provisions of this Warranty within ninety (90) days of the appearance of such claim shall constitute a waiver by customer of all claims with respect to such goods and equipment. No express, implied, or statutory warranty other than that herein set forth is made or authorized to be made by Liberty Products, Inc.

Snowmobiling is serious fun. Be sure to read and understand your owner's manual and please pay special attention to the safety instructions. Arctic Cat Inc. endorses and encourages the safe use of all snowmobiles. Be careful, you can get hurt. Wear a helmet and don't drink and ride. Be aware of natural hazards you may encounter, allow yourself plenty of room to safely stop your snowmobile under all conditions, and maintain your equipment. Your safety is in your hands, so take care. All scenes depicted or described in this brochure were performed by professional riders under carefully controlled conditions. Leave the fancy riding to the pros; they practice for years and train very hard to make it look easy. Never attempt to duplicate these maneuvers or encourage others to do so. We care about your safety and enjoyment of the sport.
